

Installation Information

Item # P0001 and P0661

Lavatory Drain with Lift and Turn Knob

1. Unthread and remove the drain flange from the drain tube.
2. Apply silicone caulking to the underside of the drain flange.
3. Insert the drain tube from the underside through the sink and slowly screw into drain flange until it stops.
4. Tighten the brass nut on the drain tube from below compressing the rubber gasket onto sink.
